

Quantum-1 is a soil amendment that uses high quality peat humus extract. This product provides a ready source of carbon for plant and microbe growth processes.

Handling:

Wear appropriate PPE to include protective gloves, chemical goggles or safety glasses and mask.

Storage:

Keep only in the original container in a cool, well-ventilated area. Keep container closed when not in use. Store out of direct sun and keep temperature between 33°F and 100°F.

Caution:

Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor.

Expires 5 years from production date on base of container.

Another quality product from the Quantum Growth series.

CONTAINS NONPLANT FOOD INGREDIENTS

Guaranteed Analysis:

Humic Acid..... 2.5%
(derived from organic humus)

Also Contains Non-Plant Food Ingredients

Total Other Ingredients (inc. water)..... 97.5%

General Application Rates:

Apply at planting/transplanting, pre-bloom, fruit set and 10-14 days after fruit set. Use from 4 to 10 gallons per acre per application with a minimum of 20 gallons of water. This application rate and timing information is given as general guidelines for use. Exact dosages are subject to local conditions, fertilization and chemical program.

Mixing Instructions:

Fill container with half of water to be used for application. Add desired amount of Quantum-1 then the remaining water.
